LAMINATES

WWW.GLAMLAMINATES.COM

Who is GLAM LAMINATES ?

is a wholesale distributor and strategic partner with over 10 years of experience serving South and Central American markets. Recognized as a trusted supplier to leading retailers, dealers, and manufacturers, the company expanded operations to the U.S. market in 2022 to deliver high quality wood products.

Our portfolio ranges from classic mouldings and interior doors to custom, exclusive solutions. We operate with integrity, prioritize customer collaboration, source premium materials, and maintain precise craftsmanship to ensure durable, flawless finishes.

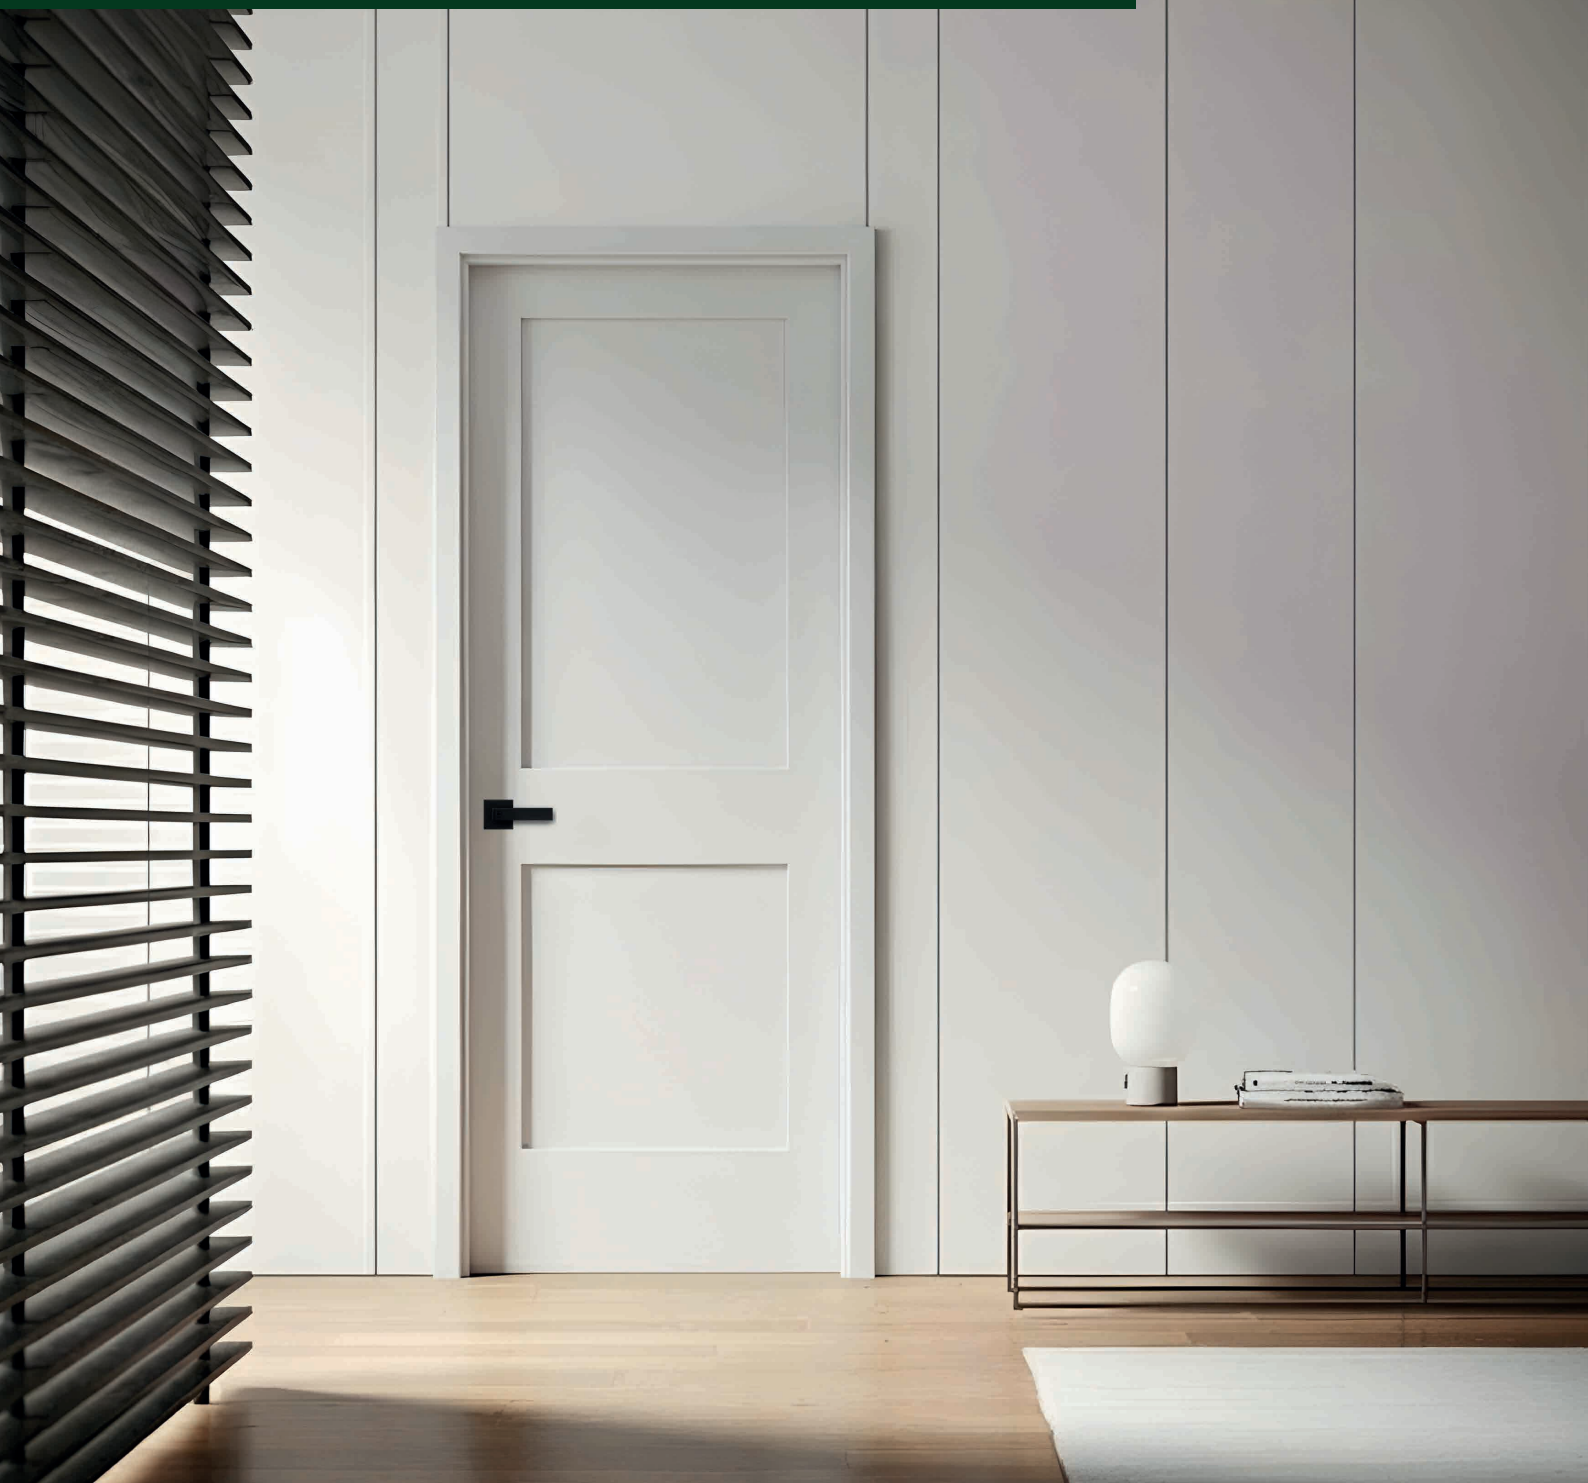

Through innovation, competitive strength, and custom creations tailored to specific requirements, helps businesses gain a decisive advantage and succeed in their markets.

WHY CHOOSE PONDEROSA WOOD LLC SIGNATURE SPLIT JAMBS?

Not all split jambs are created equal. Standard split jambs use an angled back cut on the male side, which weakens the jamb and leaves it vulnerable to cracking or breakage when pressure is applied during installation or everyday use.

Ponderosa Wood LLC's Signature Split Jamb is designed to solve this problem—delivering strength, reliability, and ease of installation.

THE PONDEROSA ADVANTAGE:

Stronger by Design

Our signature split jamb features a straight back cut on the male component, providing full rear support and eliminating the weak point found in conventional split jambs.

Built to Resist Breakage

With a solid backing surface, the jamb can withstand force applied to the face, greatly reducing job-site damage, callbacks, and waste.

Same Strength as a Regular Jamb

Once assembled, the back of the split jamb is identical to a regular one-piece jamb, offering superior structural stability without sacrificing flexibility.

Plug-and-Play with Pre-Hung Equipment

No shimming tricks. No special adjustments. Our straight-cut design works seamlessly with pre-hung door machinery, saving time and labor.

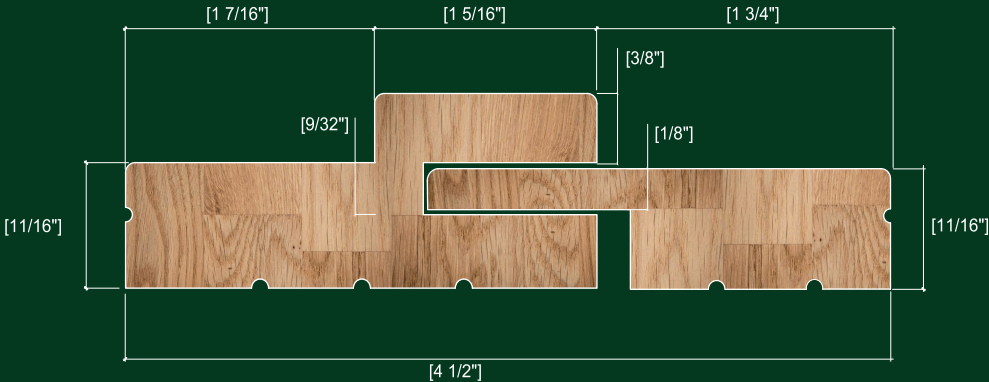

Faster Installs. Fewer Problems.

Installers get easier alignment, smoother assembly, and consistent results—every time.

Bottom Line:

Ponderosa Wood LLC Signature Split Jambs deliver the strength of a regular jamb, the convenience of a split jamb, and the reliability professionals demand. Less breakage. Less labor. More confidence on every job.

A NEW STANDARD IN FINISH & VERSATILITY

By Ponderosa Wood LLC

We are proud to introduce a **groundbreaking advancement** in architectural millwork—made possible through Ponderosa Wood LLC's continued investment in precision **S4S technology**.

Every profile is meticulously finished on **all four sides**, ensuring a level of consistency, refinement, and surface quality that discerning professionals expect from a premium product.

VERSATILITY, REIMAGINED.

This next-generation baseboard features a **dual-faced design**:

- One side presents our **signature smooth, elegant finish**.
- The reverse side reveals a **tastefully integrated groove**.

The result is a **fully REVERSIBLE baseboard**, offering unmatched design flexibility. Install it clean and minimal, or with a subtle architectural detail one product, two **distinct aesthetics**.

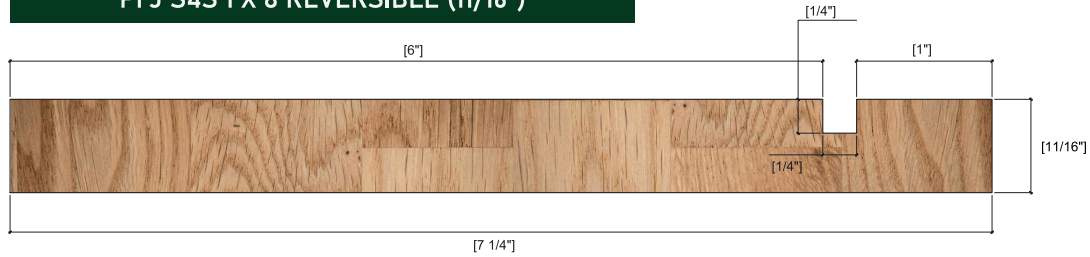

This innovation empowers designers, builders, and homeowners with greater creative freedom while maintaining the uncompromising quality that defines **Ponderosa Wood LLC**. We believe this enhancement sets a **new benchmark in finish, functionality, and design versatility** and deliver superior experience from installation to final presentation.
